PROFILE

.NET developer with nearly one year of hands-on experience building scalable and maintainable applications using C#, ASP.NET, and related technologies. Currently pursuing a degree in Computer Engineering at the National Aviation Academy with a focus on software development and engineering principles. Experienced in working with RESTful APIs, SQL Server, and version control systems such as Git, with a strong interest in continuously improving development skills and building efficient software solutions.

EDUCATION

- National Aviation Academy**
Computer Engineering (2021-2026)
- Jet Academy**
.Net Development (May 2024 - November 2024)
- Code Academy and Ministry of Science and Education**
Code For Future - AI based programming (October 2025 - January 2026)

WORK EXPERIENCE

Jet Academy

.Net Developer intern (June 2024 - October 2024)

- During my internship at Jet Academy, I actively applied and deepened my theoretical knowledge through hands-on experience with real-world tasks. This experience enhanced my understanding of core technologies such as C#, ASP.NET Core, MVC, and MSSQL. I also gained practical insight into software architecture, development workflows, and best practices in modern web application development.

Guys Group

.Net Developer intern (January 2025 - July 2025)

- As a .NET Developer Intern at Guys Group, I contributed to the development and maintenance of a startup project, focusing on scalable backend services. This experience strengthened my skills in C#, ASP.NET Core, PostgreSQL, and the CQRS design pattern. I worked closely with the team to implement features, resolve issues, and follow clean architecture practices.

Exlaqi-Nasiri Project

- I worked as a backend developer in a team-based software project where I developed and maintained APIs using C# and .NET. I was responsible for implementing business logic, handling database operations with Entity Framework, and ensuring data validation and security.

SKILLS

C#	RestApi
MVC	PostMan
MSSQL	Git
PostgreSQL	GitHub
ASP.NET Core	Git Extensions

LANGUAGES

Azerbaijani(Native)
English(C1)

CERTIFICATES

- .NET Development Intern (Jet Academy)
- .Net Development (Jet Academy)
- C# Foundation(Microsoft and freeCodeCamp)
- CI and CD with ASP.NET Core from Coursera
- Certificate of Participation at CFF
